

More information coming soon!!!!!!

DP Charitable Foundation's Mission is to designed to help people help themselves. We will support projects in communities where we work and around the world. Our mission is to encourage the efforts of women to govern their own lives, influence the world around them and have the freedom to make life choices and choose alternatives. Our goal is to advance women by working with, supporting, and implementing programs that work to heal, build, empower and inspire women. We will award grants to women's groups all over the world that are actively working to empower women.
